

Biography of Dr. Yousheng Tao

Yousheng Tao obtained a doctorate (Ph.D.) in Advanced Physical Chemistry in 2004 from Chiba University, Japan, and a doctorate (Ph.D.) in Geological Science in 2006 from Chinese Academy of Geological Science, China. He then worked at Chiba University as a postdoctoral fellow and a JSPS Researcher. He moved to the Institute of Carbon Science and Technology, Shinshu University in 2008 as associate professor. He now is a professor in Haixi Institutes, Chinese Academy of Sciences and a guest professor in Sichuan University, China. Dr. Tao is currently the Editor-in-Chief of *Recent Innovations in Chemical Engineering*. His research interest is focused on hierarchically structured nanoporous carbon, carbon nanotubes and graphenes, and adsorption science and techniques.
